

Container Shipping Services

- **Liner Services:** Regular, scheduled services with fixed routes and timetables for transporting containers between major ports.
- **Feeder Services:** Smaller vessels that transport containers between smaller, regional ports and hubs, connecting them to the larger global network.
- **Charter Services:** Some lines provide chartered vessels for companies with specific shipping needs or for one-time shipments.
- **Specialized Services:** Some shipping lines offer specialized services for particular cargo types, such as hazardous materials or oversized cargo.
