

HUMAN ANATOMY AND PHYSIOLOGY – I
UNIT – IV PERIPHERAL NERVOUS SYSTEM

2 Marks:

1. Reflex arc
2. Rodes and cones
3. Action potential of muscle fibres
4. Function of neurone
5. Aqueous humor
6. Disease of eye
7. Spinal reflex
8. Retina
9. Auditory ossicles or ear ossicles
10. Cervical segment of vertebral column
11. Preganglionic and postganglionic neurotransmitters of parasympathetic system
12. Auditory and vision receptors
13. Division of ANS
14. Glaucoma
15. Olfaction
16. Neuroglia
17. Function of neurone
