

TENSES AND VOICES

'Voice' – What Is It?

The term 'voice' is a term that is used to denote the form of the **verb** which shows if the subject in a given sentence is the doer or receiver of the action. The voice of a verb describes the relationship between the action and the participants (**subject** or **object**) in a sentence.

The Two Voices in the English Language

There are two voices in the English language and they are as follows:

- Active Voice
- Passive Voice

Let us look into the two voices a little in detail with the help of the meaning and definition given below.

What is the Active Voice? – Meaning and Definition

The active voice, in a sentence, denotes that the **noun** or **pronoun** that acts as the subject in the sentence is the doer of the action. In other words, the subject performs the action or acts upon the verb.

According to the Oxford Learner's Dictionary, the active voice is defined as "the form of a verb in which the subject is the person or thing that performs the action", and according to the Collins Dictionary, the active voice is defined as "a voice of verbs used to indicate that the subject of a sentence is performing the action or causing the event or process described by the verb."

What is the Passive Voice? – Meaning and Definition

The passive voice, on the other hand, represents that the subject is one acted upon by the action or verb in the sentence. It can also be said that the passive voice indicates that the subject in the sentence is no longer active but passive.

According to the Oxford Learner's Dictionary, the passive voice is defined as "the form of a verb used when the subject is affected by the action of the verb", and according to the Collins Dictionary, the passive voice is "formed using 'be' and the past **participle** of a verb. The subject of a passive clause does not perform the action expressed by the verb but is affected by it."

What is the active voice?

The active voice, in a sentence, denotes that the noun or pronoun that acts as the subject in the sentence is the doer of the action. In other words, the subject performs the action or acts upon the verb.

Using the Active Voice and the Passive Voice – Points to Remember

There are a few points that you have to bear in mind when using the active voice and the passive voice. In the English language, the active voice is used generally as they give the information in a direct and clear manner. Make sure you do not use the passive voice just because you think it sounds better. Use it only if it is necessary. Remember that the active voice has the subject doing the action and the passive voice has the subject receiving the action. If you want to communicate your thoughts and ideas clearly and effectively, especially in a professional setup, it would be best to use the active voice.
