

# ADDITION and SUBTRACTION

## WARM UP

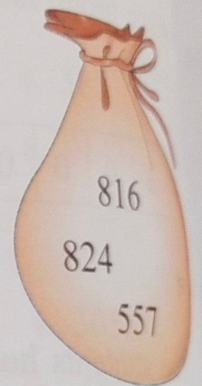

A. Which two numbers from the left add to give the number on the right? Choose and write.

$$\begin{array}{r} 145 \\ 546 \end{array} + \begin{array}{r} 671 \\ 145 \end{array} = \begin{array}{r} 816 \end{array}$$

$$\begin{array}{r} 546 \\ 278 \end{array} + \begin{array}{r} 278 \\ 278 \end{array} = \begin{array}{r} 824 \end{array}$$

$$\begin{array}{r} 312 \\ 295 \end{array} + \begin{array}{r} 295 \\ 295 \end{array} = \begin{array}{r} 557 \end{array}$$

The answer that we get on adding two numbers is called the sum.

The answer that we get on subtracting two numbers is called the difference.

B. Fill in the boxes to reach the final answer.

$$\begin{array}{r} 8969 \\ - 8113 \end{array}$$

$$\begin{array}{r} \boxed{856} \\ - 167 \end{array} \rightarrow \begin{array}{r} \boxed{856} \\ - 167 \end{array}$$

$$\begin{array}{r} \boxed{\phantom{000}} \\ - 167 \end{array}$$

$$\begin{array}{r} \boxed{\phantom{000}} \\ - 291 \end{array}$$

$$\begin{array}{r} \boxed{\phantom{000}} \\ - 291 \end{array}$$

$$\begin{array}{r} \boxed{\phantom{000}} \\ - 119 \end{array}$$

$$\begin{array}{r} \boxed{\phantom{000}} \\ - 119 \\ \hline 279 \end{array}$$
