

Social studies

NAME:

GRADE: III.

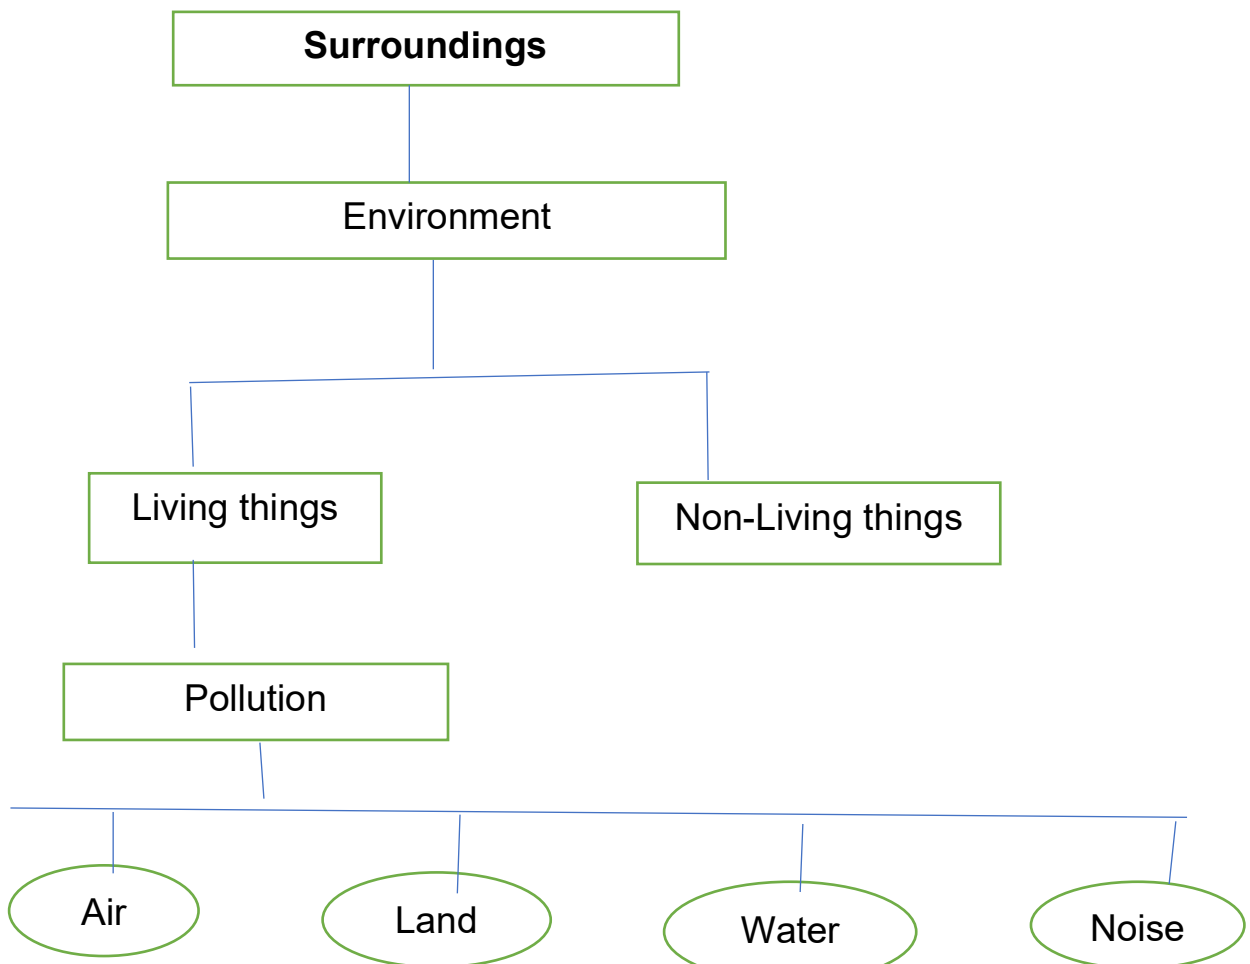

DATE: .1.24

9.My Surroundings

I. Word Focus

Environment. Elements, Living things,
Non-living things, Eco-system, Interdependence,
Ecology, Pollution, Garbage, Poison, Chemicals,
Smoke, vehicles

II. Concept map

III. Match the following

- | | | | |
|---------------------|---|-----------------|---|
| 1.Smoke | - | land pollution | 2 |
| 2.Garbage | - | Noise pollution | 3 |
| 3.Chemicals | - | Air pollution | 1 |
| 4.Bursting crackers | - | Water pollution | 4 |

IV. Give examples for the following

- 1.Living things -
- 2.Non-Living things -
- 3.Pollutants - Plastics, Garbage, Smoke.

V. Answer the following

1.What is an environment?

Our environment is the total of all living things and non-living that influence our lives.

2.Write the elements of nature.

The elements of nature are rocks, soil, water, air and sunlight.

3.What is a pollution? Name the different forms of pollution.

Pollution is the introduction of harmful things to the environment.

The different types of pollution are air, land, water and noise pollution.

4.What is ecology?

The study of different living things depends on each other and on the non-living things in their environment is called ecology.

5.What is interdependence?

The give and take between the living and non-living things in an environment are known as interdependence.

VI. Answer in detail

- 1.Write a note on each type of pollution with examples.

Air pollution:

Air pollution causes dirty air to enter our bodies and affect our health.

Industries release a lot of smoke.

Land pollution:

Land pollution releases poison into the soil and groundwater. Large landfills with garbage into the soil.

Water pollution:

Water pollution releases toxins into the water, which affects all living things that depend on water.

Noise pollution:

Noise pollution are man-made sounds which are too loud. Loud honking sounds from vehicles cause noise pollution.

2.List a few ways by which we can keep our environment free of pollution.

- Reduce plastic.
- We can use glass or metal containers.
- Plant and care for trees
- We can recycle newspapers or any dry waste.
- We can use cloth or paper bags.

Assignment

Choose any one type of pollution and make a poster to conserve our earth. (write a slogan)
