TECHNOLOGY

COURSE NAME : CPB & ITS COMPLICATIONS

3RD YEAR

TOPIC : POWER FAILURE DURING CPB

MS. KRIPA/LECTURER/SNSCAHS

Power Failure during CPB

- It is an life threatening emergency that should be rectified immediately.
- Notify the surgical team
- Initiate the emergency backup power (generators or UPS) that can provide power to critical equipment such as HLM and monitor.
- Check the CPB machine , once powerbackup is activated.

THANK YOU
