

Chapter G – Electrodiagnosis

1. Fill in the Blank: The minimum current required to excite a muscle is called _____.
2. Riddle: 'I am the twin of Rheobase, double me defines time.'
3. Match the Following: Rheobase → Minimum current, Chronaxie → Time at 2x rheobase, SD Curve → Relationship of strength vs duration, EMG → Records muscle activity
4. Odd-One-Out: Rheobase, Chronaxie, SD curve, MRI.
5. Jumbled Word: GONCITUDONCERVEN
6. True/False: Rheobase is measured in volts.
7. Crossword Clue: Curve used in electrodiagnosis (2 words).
8. Fill in the Blank: _____ test records muscle electrical activity.
9. Riddle: 'I measure how fast signals travel along nerves.'
10. Odd-One-Out: Latency, Conduction Velocity, Chronaxie, Ligament.
