- Breaks you out of the box

# Today's Reality Demands Innovation

Demand in Innovation

# Today's Reality Demands Innovation

Massively successful companies have disappeared into oblivion by believing what worked before will work

It's impossible to predict the future.

In order for a business to stay current, they must move with Innovation.

# Guess

# Faced with insurmountable task?

Being tasked with the challenge of doing it is another

Design Thinking takes the challenge or problem and drills it down into small bite-size pieces, enabling you to drill down to the core issues

One can see clearly and piece together the most critical aspects to devise a strongly relevant solution.

# What if there is no market?

A common concern in developing a new product or service is “Will there be a market?”

# What if there is no market?

- Design Thinking involves the market from the get-go
- Design thinking helps us in
  - spending time with the market
  - understanding their needs
  - the realities of their world

# Summary

- Today's reality demands innovation
- Faced with an insurmountable task?
- What if there is no market?
- It's always about people
- Fail Fast
- Breaks you out of the box
