Saying hello to android

simple Android Application which will print "Hello World!".

Create Android Application

The first step is to create a simple Android Application using Android studio. When you click on Android studio icon, it will show screen as shown below

Mrs.P.Subhashree/AP/CSE
Mrs.L.Poornima Devi /AP/CSE
Mr.G.Ramesh Kalyan/AP/CSE

UNIT 1

You can start your application development by calling start a new android studio project. in a new installation frame should ask Application name, package information and location of the project. –

After entered application name, it going to be called select the form factors your application runs on, here need to specify Minimum SDK, in our tutorial, I have declared as API23: Android 6.0(Mashmallow) –

UNIT 1

Try to run the **Hello World!** application just created. Then create **AVD** while doing environment set-up. To run the app from Android studio, open one of your project's activity files and click Run  icon from the tool bar. Android studio installs the app on AVD and starts it and if everything is fine with the set-up and application, it will display the Emulator window
