

SNS COLLEGE OF TECHNOLOGY

(AN AUTONOMOUS INSTITUTION)

Approved by AICTE & Affiliated to Anna University
Accredited by NBA & Accredited by NAAC with 'A++' Grade,
Recognized by UGC Saravanampatti (post), Coimbatore-641035.

Department of Biomedical Engineering

Course Name: 19BM0302 & WEARABLE TECHNOLOGIES

Topic :Wearable Sensors

Semester :6

19BM0302/ Wearable Sensors /Mr.S.Prince Samuel /AP/BME

INTRODUCTION

Vision Title 3

WEARABLE ELECTRONICS BY USE

Vision Title 3

GOOGLE GLASS

Google Glass is Google's wearable computer that a person wears like a regular pair of prescription glasses. Google Glass is best described as an evolution of the smart phone — a way to freely access data without needing to look at a handheld device.

INNOVATION PRINCIPLE

Wearables:

The past, present and future of technology, people and the planet.

Sustainability focuses on meeting the needs of the **present** without compromising the ability of **future generations** to meet their needs.

The concept of *sustainability* is composed of 3 pillars: economic, environmental and social - also known informally as profits, planet and people.

But these 3 pillars exist over **time and space: local to global**

COLLECTION OF WEARABLES

19BM0302/ Wearable Sensors /Mr.S.Prince Samuel /AP/BME

A top-down view of a white card with 'Thank you' written in purple glitter calligraphy. The card is on a white marble surface. To the left is a bouquet of purple flowers. To the right is a black pen with a white polka-dot grip and a gift wrapped in white paper with a red and white striped ribbon. A spool of the same ribbon is in the top right corner.

Thank
you
