

I	What is demand ? Write the objectives of demand analysis.	4
I	List out the criticism of profit maximization.	4
I	Outline the responsibility of business towards society and employees.	4
I	Relate the social responsibility of business towards share holders and suppliers	4
I	Examine the nature of business decisions.	4
I	Summarize the exceptions to law of demand.	4
I	Draw and explain individual and market demand curve.	4
I	Describe about market and individual demand schedule.	4
I	Express the assumptions of law of demand.	4
I	Tabulate the difference between price elasticity and income elasticity of demand	4
II	Define Production. Outline the factors of production	4
II	Discuss the stages of Law of variable proportions.	4
II	Explain law of variable proportion with its assumptions.	4
II	Determine the concepts of cost.	4
II	Highlight the various types of isoquants	4
II	State the types of expansion path..	4
II	Outline the types of returns to scale.	4
II	Examine managerial use of cost analysis.	4
II	Explain about PV ratio	4
II	Why LAC curve slopes downwards?	4
III	What is Market? Outline its determinants	4
III	Define market structure. Specify its factors.	4
III	Distinguish between Monopolistic Competition and Oligopoly.	4
III	Classify various categories of market structure.	4
III	Interpret the basis of market classification	4
III	Annotate the features of perfect competition.	4
III	Interpret the merits and demerits of perfect market.	4
III	Build the difference between perfect competition and Monopolistic Competition	4
III	Elaborate the equilibrium of the firm in short run.	4
III	Categorize the merits of monopoly.	4
IV	Define pricing under factors of production. Outline its rewards.	4
IV	Examine the theory of rent and its assumption.	4
IV	Tabulate the wage fund theory and standard of living theory	4
IV	Outline the residual claimant theory with its criticisms.	4
IV	Summarize the wage rate determination.	4

IV	Ellobrate components of interest and spot the difference between net interest and gross interest.	4
IV	Define super normal profit.	4
IV	Examine the dynamic theory with its criticism.	4
IV	Explain subsistence theory.	4
IV	Define rent. Explain how rent is used in two senses.	4
V	Define Public Enterprises. Specify its objectives.	4
V	List the problems in public sector enterprises	4
V	Explain the pricing policy in public utility	4
V	Rephrase other measures to control monopoly in india	4
V	Outline the responsibility of business towards government in india.	4
V	Summarizw MRTTP act and its gateways	4
V	What are possible restrictive trade practice	4
V	Interpret subsidised and profit pricing	4
V	Define BEP pricing	4
V	Ellobrate entrepreneurial role of government.	4
I	Examine the exception to the law of demand with some real life examples.	6
I	Spell out the types of elasticity of demand.	6
I	Ellobrate the responsibility of business to various groups.	6
I	Describe the nature of business economics.	6
I	Highlight the determinants of demand.	6
I	State the types of demand.	6
I	Rationale for law of demand - why does demand curve slope downwards?	6
I	Explain about determinants of price elasticity of demand.	6
I	Describe various types/degrees of price elasticity.	6
I	List the various way to measure the price elasticity of demand.	6
II	Classify the three steps of Law of Diminishing Returns as Increasing, Diminishing and negative returns.	6
II	Associate the optimum combination of inputs and single output.	6
II	Extend the importance of law of diminishing returns.	6
II	Tabulate the types of cost.	6
II	Write about determinants of cost.	6
II	Describe cost function and use of cost analysis.	6
II	Ellobrate the cost-output relation in short-run .	6
II	Write short notes on long run average cost.	6
II	Explain about determination of BEA.	6
II	Ellobrate the use of BEA in economics and its limitation.	6

III	Describe the firm under monopoly.	6
III	Recall the price output determination in monopoly during short run and long run.	6
III	Show the difference between monopoly and perfect competition.	6
III	Classify the various kinds of price discrimination in Monopoly	6
III	Rephrase the different "types and tools" for price discrimination.	6
III	Compare the price output determination in monopolistic competition during short run and long run.	6
III	What are the features of oligopoly?	6
III	Explain about imperfect collusion.	6
III	List the Merits and demerits of monopolistic competition.	6
III	Explain kinked demand curve and its criticism.	6
IV	Describe the rent theory with example.	6
IV	Explain marginal productivity theory and its criticism.	6
IV	Define the modern theory of wage determination with diagram.	6
IV	Illustrate the modern theory of interest IS/LM curve model.	6
IV	How will you measure profit?	6
IV	Highlight the types of classical, anti-classical, neo-classical theories of profit.	6
IV	Explain uncertainty bearing theory.	6
IV	What is Schumpeter innovation theory? Write its criticism.	6
IV	What is derivation of LM curve?	6
IV	Execute the Keynesian theory and its criticism	6
V	Summarize the responsibility of government to business	6
V	Relate the changing dimensions of MRTP Act.	6
V	Define Unfair trade Practices. Evaluate its regulation and enforcement	6
V	Tabulate the difference between public and private company	6
V	Summarize the features of public utilities	6
V	Elaborate the pricing methods in public utilities.	6
V	Interpret the government measures to control monopoly in India.	6
V	Relate the performance of public enterprise in India.	6
V	What are the causes for expansion of public enterprises?	6
V	Organize the Role of Public Enterprises. Justify the performance of public Enterprises in India.	6
